

Travel Report: Wednesday London

In this travel report we want to tell you about the trip to London. It was a wonderful day and some dreams became true.

The day started with a delicious breakfast in our host family in Hastings at seven 7 o' clock in the morning . During our breakfast a seagull flew in front of our window and the host parent fed it. We decided to name it James, because we found it sad that he had no name.

At 8 o' clock we met our group at the meeting point. Then, our coach took us to London in 2 hours. When we were sitting in the bus, we could already see some famous sights, for instance the London Eye, Big Ben and Tower Bridge.

First, we walked to Big Ben and to the House of Parliament. From there we went to Westminster Abbey where many kings and queens like Charles were crowned or married.

After that, we visited the Buckingham Palace. We saw many horse guards there, but unfortunately not King Charles. Our families were very sad, because they had said that we should send greetings to him.

For lunch, we had a picnic in James Park. We ate our lunch packet from our host families.

Later, we went on a ride in the London Eye and had a beautiful view over London. Afterwards, we got free time and ate the traditional English fish and chips. Next to the London Eye we bought pretty souvenirs.

On the way to the Tower Bridge, we walked over the Millennium Bridge. This was very exciting for us because in a film, the protagonist ran over this bridge.

Next, we visited St. Paul's Cathedral, where Charles and Diana married.

Afterwards, we went to the Tower Bridge, where we saw how it opened. When we walked over the bridge it was very breathtaking because we had an amazing view over the Thames. Before the coach picked us up, we saw the Tower of London. After a long, but beautiful day, the bus driver Frank drove us back to Hastings.

The day was very nice, we saw lots of things and learned much about London. We took very nice photos which we want to show you now:
